## Profile

I am a Full Stack Web Developer in Atlanta, GA. After several years in photography, I decided to pursue a career in which I could combine my artistic strengths from photography with my passion for science.

## Featured Projects

### The Shoebox Project

- Live Site: [MyShoeboxProject.org](http://MyShoeboxProject.org)
- Repository: [github.com/eddieatkinson/shoebox-project-full](https://github.com/eddieatkinson/shoebox-project-full)
- Website for non-profit organization providing photographs for foster children with login/sign-up abilities for users and volunteers of different clearance levels, including ability to upload photos directly to Amazon S3 bucket
- Built with Express, Node.js, MySQL, JavaScript, jQuery, HTML, and CSS

### Rock or Not

- Repository: [github.com/eddieatkinson/voteApp](https://github.com/eddieatkinson/voteApp)
- Allows users to sign in and vote on various musical groups, and upload band images of their own to vote on.
- Built with Express, Node.js, MySQL, JavaScript, jQuery, HTML, and CSS

### BlackJack

- Repository: [github.com/eddieatkinson/blackjack](https://github.com/eddieatkinson/blackjack)
- Classic card game built with JavaScript, jQuery, HTML, and CSS

### Catch Fred

- Repository: [github.com/eddieatkinson/dancing\\_game](https://github.com/eddieatkinson/dancing_game)
- Help Fred Astaire collect hats without being caught by Ginger Rogers, avoid tomatoes, and dance the moves.
- Built with Pygame and Python
